

Wall mounts for Motor-Pump Units

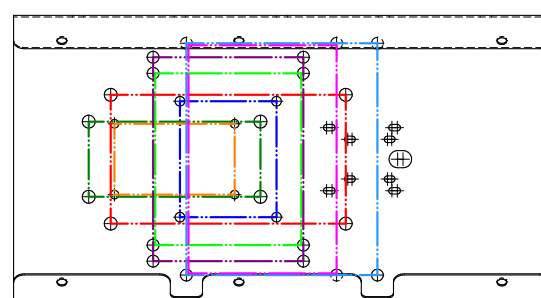

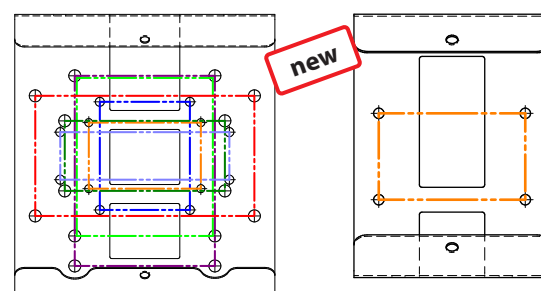

Fits our motor-pump units
with 3 / 4 / 5.5 and 7.5 KW

Wall mounts for Motor-Pump Units

- Prepared bore holes for the attachment
- Stainless steel, corrosion-resistant and robust
- 3 variants in different sizes with the following **dimensions:** 270 x 270 x 500 / 280 x 280 x 260 / 200 x 200 x 150 mm
- All variants are suitable for motor-pump units with type HPV. You will find other suitable combinations on the following page
- All wall brackets are made from one workpiece without welding seams and have a high load capacity
- Optional accessories: Rubber buffer as vibration damper (PU = 4 pieces) made of steel or stainless steel

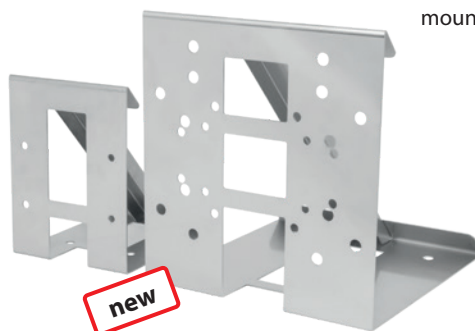

Quick and safe Installation: Proposed holes simplify the mounting of the motors and the bottom filter housings.

Vibration dampers

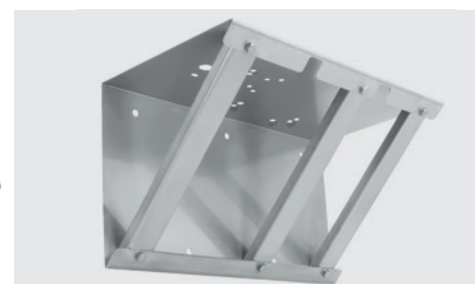

Rubber buffer type A. M10 x 28. Incl. Screws and washers. Steel or stainless steel with elastic natural rubber 55°. Spring stiffness: 500 N / mm. Load: 2000 N

R+M Nr.	height	Ø	material	PU
105 000 101	30	50	steel	4 pieces
105 000 104	30	50	stainless steel	4 pieces

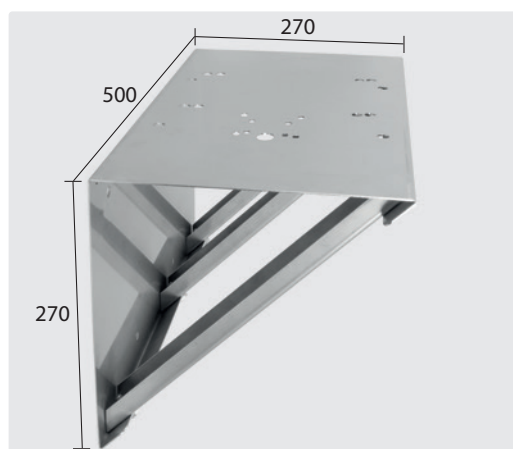

New variants: With just one stabilizing cross strut, the base plates manage without a filter recess.

Stable construction: Corrosion-resistant stainless steel screws on stabilizing cross braces

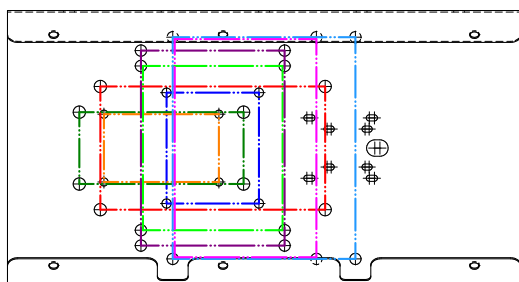

Wall mounts for Motor-Pump Units

Wall mounts

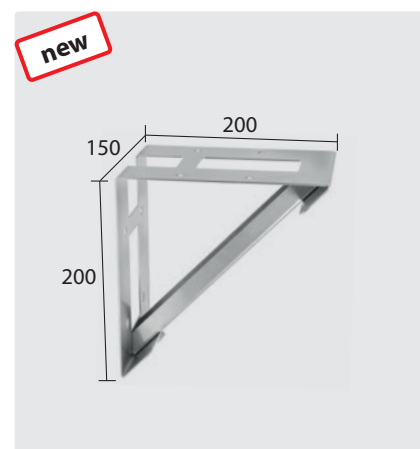

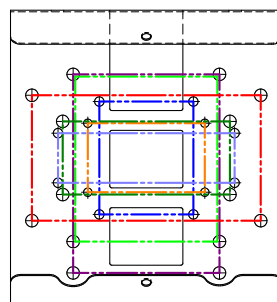

Stainless steel. Suitable for our motor-pump units with 3 / 4 / 5.5 and 7.5 KW

R+M Nr.
105 000 020

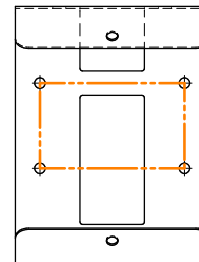

Stainless steel. Suitable for our motor-pump units with 3 / 4 and 5.5 KW

R+M Nr.
105 000 022

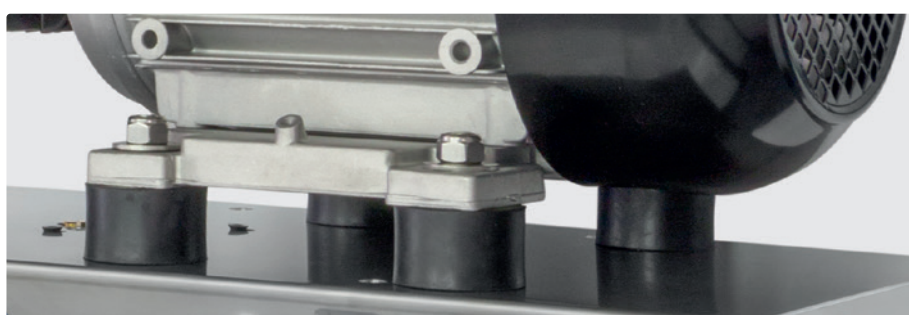

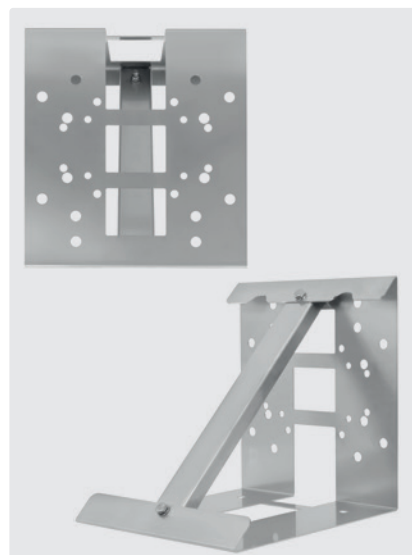

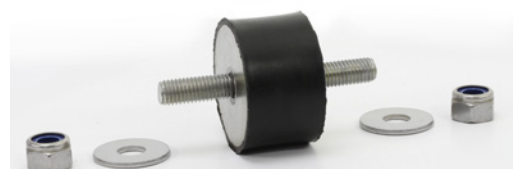

Stainless steel. Suitable for our motor-pump units with AR HPV

R+M Nr.
105 000 021

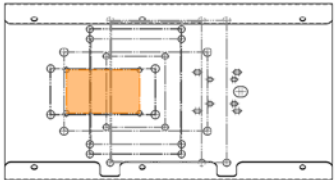

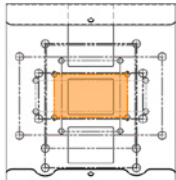

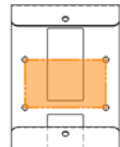

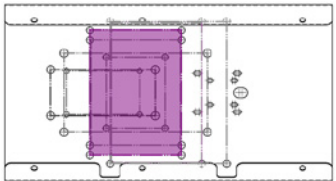

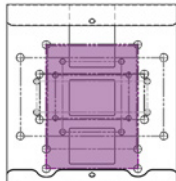

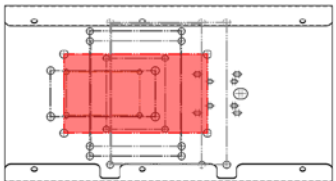

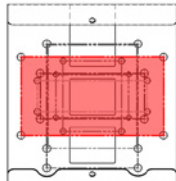

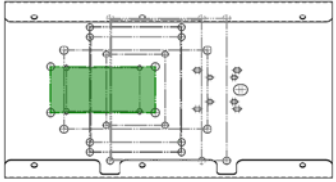

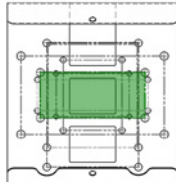

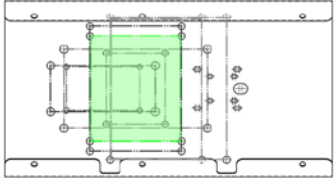

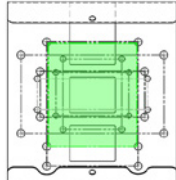

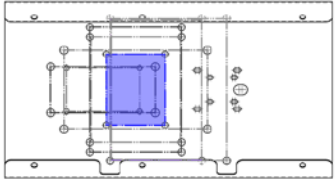

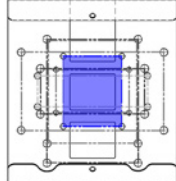

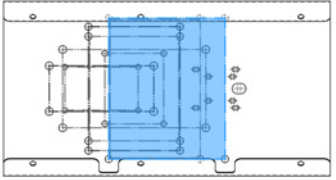

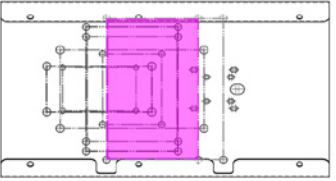

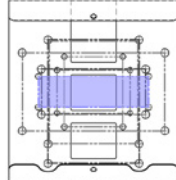

Filter place: set up for the use of plastic filter housings. (2- and 3-part)

Vibration damper: optionally available and easy to attach. To reduce start vibrations. PU = 4 pieces

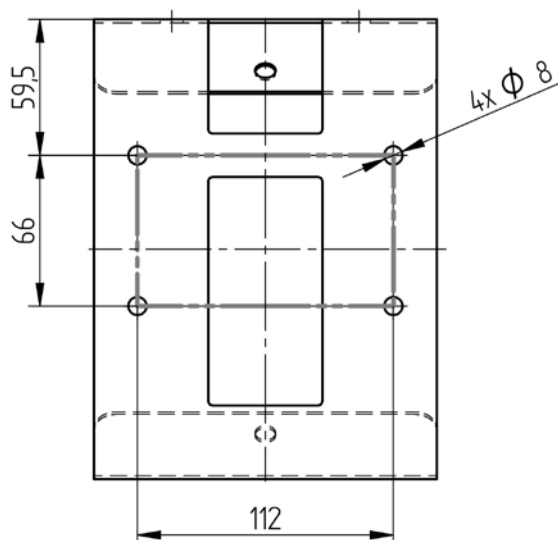

Wall mounts for Motor-Pump Units

Hole dimension	R+M Nr. 105 000 020	R+M Nr. 105 000 022	R+M Nr. 105 000 021
Width 112 mm Depth 66 mm e.g. Annovi Reverberi Typ HPV			
Width 140 mm Depth 190 mm e.g. Annovi Reverberi 4 - 5,5 KW			
Width 219 mm Depth 120 mm e.g. Annovi Reverberi Typ HPE, Typ HPJ with sheet metal			
Width 160 mm Depth 70 mm e.g. Annovi Reverberi Typ HPV with sheet metal			
Width 140 mm Depth 160 mm e.g. Annovi Reverberi 2,2 -3 KW			
Width 90 mm Depth 108 mm e.g. Annovi Reverberi Typ M			
Width 178 mm Depth 216 mm e.g. Annovi Reverberi 11 KW			
Width 140 mm Depth 216 mm e.g. Annovi Reverberi 7,5 KW			
Width 169 mm Depth 47,5 mm e.g. Annovi Reverberi Typ HPJ
