

# Lance holder for high pressure hoses

The choice of perfection

## Co-use for:

- Hose Rail Systems
- Wall and Ceiling Boom
- High Pressure Swing Arms for truck and car wash, as well as applications in the food industry

suitable for lances, double lances or foam lances

## Lance holder for mounting on high-pressure hose

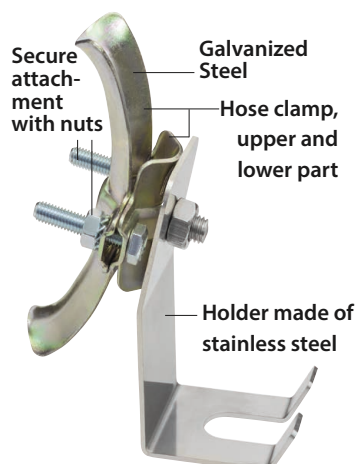

- Hose clamp, galvanized steel and lance holder made of stainless steel
- For hoses with an outside diameter of 16-24 mm
- Hose clamp with easily detachable screw connection (Hex 10)

corrosion resistant

Suitable for hoses  
Ø 16-24 mm

### Lanzenhalterung

Neu

### Simple mounting on the hose:

By loosening the two screw connections (Hex 10) on the clamp, the hose can be easily clamped.

**Always at hand:** The lance can be easily hung with the nozzle guard at the desired location.
