

Product Description

The choice of perfection

PRODUCT NO.: 613708

QUICK CONNECT NOZZLE 1506

INLET SS

Chiseling nozzle 15°

Nozzle size 06

Max. 210 bar / 100°C

High strength plastic. Highly impact resistant

Long lifetime and excellently thermal stability

Nipple stainless steel. Nipple at black nozzle made out of brass

Suitable for applications requiring a frequent and quick change of the spraying angle

Technical data

Material	Stainless steel (Nipple)	Nozzle	060
Pressure	210 bar	Scouring angle	15°
Temperature	150°C
