Product Description

The choice of perfection

PRODUCT NO.: 649160316250

TURBO NOZZLE ST-458.1 WITH DRIVER HEAD 250 3/8F

Suttner rotor nozzles with ceramic insert and stainless steel thrust piece

Type: ST-357.1

Spray angle 20 °

Application range: 100 - 250 bar

Max. 100°C

Inlet: 1/4F

Housing: brass

Without protection cap

Thrust piece: Hardened stainless steel

Rotor nozzles with thrust pieces are the perfect connection for breaking up and removing blockages with the rotating front jet.

The 6 powerful rear-facing thrust jets guide the nozzle to the clogged area, where the front-facing cone-shaped rotating spot jet delivers enough cleaning power to mill through roots or debris.

Also ideal for shredding cellulose or greasy debris.
