Product Description

The choice of perfection

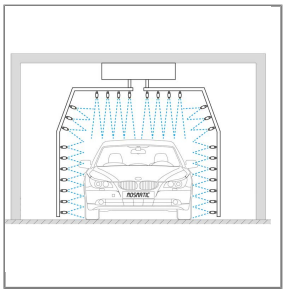

PRODUCT NO.: 10814320

MOSJET 020 1/4" F ROTOR NOZZLE WITH FILTER

Mosmatic MOSjet rotor nozzle
Spray angle 24°
Operating range: 35 - 150 bar
Max. 90 °C
Inlet: 1/4" female thread
Housing: stainless steel

MOSjet nozzles are powerful high-pressure rotor nozzles for professional cleaning.
Thanks to their precise jet geometry, they generate high impact force while optimising water distribution. This ensures thorough cleaning results with reduced water and energy consumption.
Made from robust materials such as stainless steel, MOSjet nozzles impress with their long service life and reliable performance – ideal for security systems, the food industry, production and industrial cleaning applications.

Technical data

Inlet	1/4" IG	Manufacturer	Mosmatic
Material	Stainless steel	Nozzle	020
Pressure	35 - 150 bar	Scouring angle	24°
Series	MOSjet	Temperature	90 °C
Type	OEM 14.320
