# Product Description

The choice of perfection

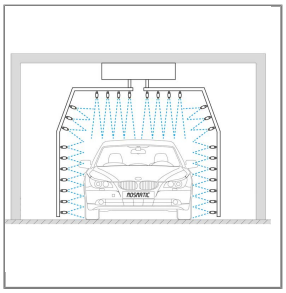

**PRODUCT NO.: 10814330**

## MOSJET 030 1/4" F ROTOR NOZZLE WITH FILTER

Mosmatic MOSjet rotor nozzle
Spray angle 24°
Operating range: 35 - 150 bar
Max. 90 °C
Inlet: 1/4" female thread
Housing: stainless steel

MOSjet nozzles are powerful high-pressure rotor nozzles for professional cleaning.
Thanks to their precise jet geometry, they generate high impact force while optimising water distribution. This ensures thorough cleaning results with reduced water and energy consumption.
Made from robust materials such as stainless steel, MOSjet nozzles impress with their long service life and reliable performance – ideal for security systems, the food industry, production and industrial cleaning applications.
