

PRODUCT NO.: 10878191

FLOOR CLEANER FL-DAR 300 WITHOUT GUN

AND NOZZLE

Mosmatic surface cleaner with recovery system for steam generator

Diameter: 300 mm

Inlet: M22x1.5 M

Weight: 4.0 kg

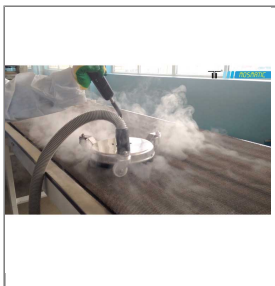

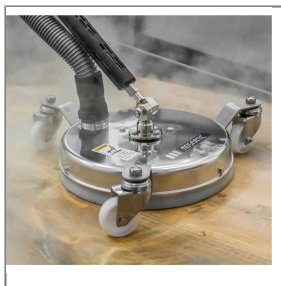

PA castors: The castors allow free movement in any direction while having the same distance from the nozzles to the surface. The castors are made out of PA thus being suitable for the food industry.

Splash protection: The plastic rim guard prevents over spray and flying debris. It is extremely effective due to the wavy design.

High quality swivel: The heart of a Mosmatic surface cleaner is the swivel which is reinforced with self-lubricating, stainless steel ball bearings and a high temperature sealing system.

The surface cleaner FL-DAR is the newest innovation from Mosmatic. It is possible to clean walls and other surfaces with steam and keep them dry. Save time! Steam cleaning is a great way to disinfect, sterilize or degrease surfaces. By using this cleaner you are able to clean 4-5 times quicker than by using a lance. The FL-DAR can be used with steam up to 180°C and a \varnothing 200 mm hand held model or a \varnothing 300 mm floor model with wand are available. Both cleaner are equipped with nozzles. The complete stainless steel construction makes them perfect for the medical and food industry. Best performance with 10 kW steam generator.

Delivery: 2 - 3 weeks
