Product Description

The choice of perfection

PRODUCT NO.: 710100900

SOLAR/PV SURFACE CLEANER 520 MM 1/4F

520 mm 1/4"F

The rotating PV and solar cleaner, also suitable for connection to telescopic spray pipes.

Effective cleaning of solar modules thanks to triple rotor arm with Aqua drive for three rotating special nylon brushes.
Brush rotor arm with 3 point spray nozzles 1.05 mm.
3 brushes with diameter: 160 mm, bristle length: 40 mm. Brush body mounted on stainless steel bearings.
Height adjustment 15 mm.
Robust design thanks to stabilising ring and stainless steel fixings.
520 mm wide hood made of lightweight but indestructible ABS plastic. Weight 7.4 kg.
Top-class swivel joint for professional industrial use, suitable for applications with up to approx. 500 operating hours per year.
Triple bearing, hard metal seals.
All water-carrying components are made of stainless steel.
1/4’ female thread inlet on 90° swivelling retaining bracket, cushioned by a rubber stop on the hood.
A splash guard protects against flying dirt and ensures a well-moistened cleaning surface so that the brushes can clean perfectly.
Working pressure: 50-70 bar / Temperature: 50 °C
Max. flow rate 12.5 l/min.
