HP HOSE REEL STKi2 MO60 1/2" SS

12V 50Hz

Motorised hose reel STKi2Mo

STKi2Mo series for trade and industry:

The base frame consists of folded sheet steel profiles and guarantees maximum stability

The reel has an almost closed sheet steel hub and runs in maintenance-free plastic bearing bushes.

It is driven by a robust geared motor with a manual sliding clutch. Two manual buttons allow the reel to rotate either clockwise or anti-clockwise.

The hose is unwound either by motor or manually after disengaging the motor using the sliding clutch.

A radio remote control is available as an option, which allows the motor to be controlled from a distance of up to 120 metres.

Applicable media:

Water or water with cleaning chemicals, air, oils and greases.

Angled swivel joint ST-322 made entirely of stainless steel.
